Copies of the record shall be sent to all Consultants who submitted Proposals.

24. **Correction of Errors**

24.1 Activities and items described in the Technical Proposal but not priced in the Financial Proposal, shall be assumed to be included in the prices of other activities or items, and no corrections are made to the Financial Proposal.

24.2 Time-Based Contracts-If a Time-Based contract form is included in the RFP, in case of discrepancy between (i) a partial amount(sub-total) and the total amount, or (ii)between the amount derived by multiplication of unit price with quantity and the total price, or (iii) between figures and words, the later will prevail. In case of discrepancy between the Technical and Financial Proposals in indicating quantities of input, the Technical Proposal prevails and the Procuring Entity's evaluation committee shall correct the quantification indicated in the Financial Proposal so as to make it consistent with that indicated in the Technical Proposal, apply the relevant unit price included in the Financial Proposal to the corrected quantity, and correct the total Proposal cost.

24.3 Lump-Sum Contracts - If a Lump-Sum contract form is included in the RFP, the Consultant is deemed to have included all prices in the Financial Proposal, so neither arithmetical correction nor price adjustments shall be made. The total price, net of taxes understood as per ITC 24 below, specified in the Financial Proposal (Form FIN-1) shall be considered as the offered price.

25. **Taxes**

25.1 Subject to ITC 24.2, all taxes are deemed to be included in the Consultant's financial proposal as separate items, and, therefore, considered in the evaluation.

25.2 All local identifiable taxes levied on the contract in voices (such as sales tax, VAT, excise tax, or any similar taxes or levies) and in come and withholding tax payable to Kenya on the remuneration of nonresident Experts for the services rendered in Kenya are dealt with in accordance with the instructions in the Data Sheet.

27.2 In the event of identification of a potentially Abnormally Low Price by the evaluation committee, the Procuring Entity shall seek written clarification from the firm, including a detailed price analyses of its price in relation to the subject matter of the contract, scope, delivery schedule, allocation of risk sand responsibilities and any other requirements of the RFP document.

27.3 After evaluation of the price analyses, if the Procuring Entity determines that the firm has failed to demonstrate its capability to perform the contract for the offered price, the Procuring Entity shall reject the firm's proposal.
28. **Abnormally High Prices**

28.1 An abnormally high price is one where the proposal price, in combination with other constituent elements of the proposal, appears unreasonably too high to the extent that the Procuring Entity is concerned that it (the Procuring Entity) may not be getting value for money or it may be paying too high a price for the contract compared with market prices or that genuine competition between Consultants is compromised.

28.2 In case of an abnormally high tender price, the Procuring Entity shall make a survey of the market prices, check if the estimated cost of the contract is correct, and review the RFP to check if the specifications, TOR, scope of work and conditions of contract are contributory to the abnormally high proposals. The Procuring Entity may also seek written clarification from the Consultants on the reason or the high proposal price. The Procuring Entity shall proceed as follows:

i) If the proposal price is abnormally high based on wrong estimated cost of the contract, the Procuring Entity may accept or not accept the proposal depending on the Procuring Entity's budget considerations.

ii) If specifications, TOR, scope of work and/or conditions of contract are contributory to the abnormally high proposal prices, the Procuring Entity shall reject all proposals and may re-invite for proposals for the contract based on revised estimates, specifications, TOR, scope of work and conditions of contract.

28.3 If the Procuring Entity determines that the Proposal Price is abnormally too high because genuine competition between Consultants is compromised (often due to collusion, corruption or other manipulations), the Procuring Entity shall reject all Proposals and shall institute or cause competent Government Agencies to institute an investigation on the cause of the compromise, before re-inviting for proposals.

29. **Combined Quality and Cost Evaluation**

a. **Quality and Cost Based Selection (QCBS) Method**

29.1 In the case of Quality and Cost Based Selection (QCBS), the total score is calculated by weighting the technical and financial scores and adding them as per the formula and instructions in the Data Sheet. The Consultant that achieves the highest combined technical and financial score will be notified and invited for negotiations.

b. **Fixed Budget Selection (FBS) Method**

29.2 In the case of FBS, those Proposals that exceed the budget indicated in ITC 14.1.4 of the Data Sheet shall be rejected. The Procuring Entity's evaluation committee will select the Consultant with the highest-ranked Technical Proposal that does not exceed the budget indicated in the RFP, notify and invite such Consultant to negotiate the Contract.

c. **Least Cost Selection (LCS) Method**

29.3 In the case of Least-Cost Selection (LCS), the Procuring Entity's evaluation committee will select the Consultant whose Proposal is the lowest evaluated total price among those Proposals that achieve the minimum technical score required to pass, notify the Consultant and invite the Consultant to negotiate the Contract.

The Contract shall not be signed earlier than the expiry of the Standstill Period. This period shall be allowed for aggrieved Consultants to lodge an appeal. The procedure for appeal and the authority to determine the appeal or complaint is as indicated in the Data Sheet.

32.3 Availability of Key Experts

The invited Consultant shall confirm the availability of all Key Experts included in the Proposal as a prerequisite to the negotiations, or, if applicable, a replacement in accordance with ITC 12. These discussions shall not substantially alter the original scope of services under the TOR or the terms of the contract, lest the quality of the final product, its price, or the relevance of the initial evaluation be affected.

32.6 Financial negotiations
The financial negotiations include the clarification of the Consultant's tax liability in Kenya and how it should be reflected in the Contract. All applicable taxes shall be itemized separately and included in the contract price.

32.7 If the selection method included cost as a factor in the evaluation (that is QCBS, FBS, LCS), the unit rates and the total price stated in the Financial Proposal for a Lump-Sum contract shall not be negotiated.

32.8 Where QBS or CQS methods was used for a *Lump-sum Contract* as indicated in the RFP, the unit rates negotiations shall not take place, except when the offered Key Experts and Non-Key Experts' remuneration rates are much higher than the typically charged rates by consultants in similar contracts or the professional practice. In such case, the Procuring Entity may ask for clarifications and, if the fees are very high, ask to change the rates. The format for

(i) providing information on remuneration rates in the case of QB and CQS; and

(ii) clarifying remuneration rates' structure under this Clause, is provided in Appendix A to the Financial Form FIN-3: Financial Negotiations – Breakdown of Remuneration Rates. 32.9 In the case of a *Time-Based contract*, negotiation of unit rates shall not take place, except when the offered Key Experts and Non-Key Experts' remuneration rates are much higher than the typically charged rates by consultants in similar contracts. In such case, the Procuring Entity may ask for clarifications and, if the fees are very high, ask to change the rates. The format for

(i) providing information on remuneration rates in the case of QB and CQS; and

The Procuring Entity will invite the next-ranked Consultant to negotiate a Contract. Once the Procuring Entity commences negotiations with the next-ranked Consultant, the Procuring Entity shall not reopen the earlier negotiations.

34. **Letter of Award**

The total score for Technical Evaluation is 100 marks. **The minimum technical score required to pass is 70%**. Only bidders who score **70% and above will be considered for Financial Evaluation**. Bidders who score less than 70% will be eliminated from further evaluation.

29.3 The formulae for determining the Financial Score (Sf) is as follows:

\[ Sf = 100 \times \frac{FM}{F} \]

where Sf is the financial score; Fm is the lowest priced financial proposal and F is the price of the proposal under consideration or another proportional linear formula.

**The lowest fees quoted will be allocated maximum score of 100.**

Proposals will be ranked according to their combined technical (St) and financial (Sf) scores using the weights (T=the weight given to the Technical Proposal; P = the weight given to the Financial Proposal; T + P = 1). The combined technical and financial score, S, is calculated as follows:

\[ S = St \times T \% + Sf \times P \% \]

The firm achieving the highest combined technical and financial score will be awarded or invited for negotiations.

**T - Weighting for technical score - 80**
**P - Weighting for Financial Score - 20**

SECTION 5: TERMS OF REFERENCE FOR CONSULTANCY SERVICES TO CONDUCT A SURVEY ON THE BOARD’S FILM AND BROADCAST CONTENT REGULATORY SERVICES

5.1. INTRODUCTION

The Kenya Film Classification Board (KFCB) is a State Corporation established under the Films and Stage Plays Act Cap 222 Laws of Kenya to regulate the creation, broadcast, distribution and exhibition of film and broadcast content to conform to national aspirations, values, culture and morality. Further, the Kenya Information and Communications Act (KICA) empowers KFCB to impose age restrictions on programs to protect children and minors from exposure to harmful content.

A rising from the Board’s Corporate Plan 2020 – 2022 and the need to remain responsive to the needs of its stakeholders and continuously improve service delivery, the Board purposes to conduct an annual study on the film and broadcast content regulatory services to inform policy in a dynamic and ever-changing regulatory environment.

The Board therefore invites suitable consultants to submit proposals to conduct a study on the Board’s Film and Broadcast Content Regulatory Services.

5.2. OBJECTIVE OF THE ASSIGNMENT

The Kenya Film Classification Board’s Performance Review Policy calls for periodic independent evaluations of its policies, programs, projects and operations. The results contribute to better informed decision-making, foster an environment of learning by doing and promoting greater accountability for performance.

The successful deployment of the film and broadcast content regulatory services are mission critical to realization of the Board’s mandate and have thus been selected for evaluation to identify performance levels, achievements and lessons learned with a view to ascertain results to date for use in determining optimal strategies moving forward.

Value added from this evaluation is expected to be achieved through lessons learned and the development of more efficient and effective service delivery and responsiveness to stakeholder needs.

The purpose of the assignment is to evaluate the relevance, effectiveness, efficiency and impact of the content regulatory services from both an internal and external perspective and document lessons learnt and identify opportunities for improvement in service delivery.

The consultant will also be required to evaluate whether the Board’s interventions continue to be consistent with beneficiaries’ requirements, country needs, national development priorities and wider stakeholder needs.
Some of the following evaluation questions will be useful in evaluating relevance;

i. What is the Board’s intervention logic?
ii. In a rapidly changing environment is the logic still relevant? iii. Based on a situational analysis, what has since changed in the regulatory environment?
iv. Have changes in the operating environment changed the Board’s ability to achieve intended outcomes?
v. Should the project intervention logic be adjusted to remain coherent and focused on the problem that the board was established to resolve? vi. If so, what can be done at policy, legislative or administrative levels to retain the Board’s ability to fulfil its mandate optimally?

5.3.2. EFFECTIVENESS: Evaluate the extent to which the Board’s intervention’s objectives were achieved at output and outcome levels, or are expected to be achieved, taking into account their relative importance relative to:

v. Monitoring broadcast of film content and programs to ensure content intended for adult audience is not broadcast within the watershed period (5am-10pm).

In determining the outputs from the Board’s interventions, the consultant will also be required to collate and analyze data generated over time arising from the film and broadcast content regulatory services offered to discover useful trends, patterns and information useful to the board for forward-planning, decision making and policy formulation.

In presenting and visualizing the data; the consultant may propose development of applications, systems or online portals as applicable, cost-effective and practical that show past trends, current situations, upcoming renewals of licenses, expected new licensees or other client projections (for the Board’s film and broadcast content regulatory services) based on predictive analytics.
